

**Eight Reasons**  
to  
**STOP THE FIBROWATT INCINERATOR!**

- 1. Fibrowatt will provide only a few low-paying jobs to citizens in the Surry-Yadkin-Wilkes area.**
- 2. Higher-paying jobs will likely be filled from outside this area.**
- 3. The Fibrowatt incinerator will pollute the air we breathe and the local food we eat.**
- 4. Fibrowatt will jam our roads with manure and ash-hauling 18 wheelers.**
- 5. Fibrowatt may cause farmers to pay more for fertilizer.**
- 6. Because they are concerned about the health risks associated with incineration, 38 local physicians and 11 local pharmacists have signed a letter of objection to Fibrowatt siting in Surry County.**
- 7. All the profits will go to out-of-state investors; we get the pollutants and the health risks.**
- 8. Property values may decrease by as much as 20 %**

**Get Involved !**

**Join C.A.C.H.E. (Citizens' Alliance for a Clean, Healthy Economy). We meet every Monday night at 7 PM at 318 West Main Street, Elkin, North Carolina Call Eric Harrington (366-7954) or Joan Vasata (336-3334) for more information. Or go to**
