Help Stop Nuclear Power In Georgia!

Southern Nuclear Company of Georgia wants to build additional nuclear power plants near Waynesboro. This would increase the negative health impacts on nearby residents and increase the cost of electric power.

The Blue Ridge Environmental Defense League is joining with other groups who oppose this expansion. Will you help us? If you live within 40 miles of the existing Vogtle plant, please sign the enclosed **Declaration** and mail it to us before December 8, 2006.

By signing the **Declaration** you will enable us and our lawyers to represent you in a challenge to the power plant permit. Simply state your name, your address and that you live within 40 miles of the plant. (See the map.) If you live within the circle, you are within 40 miles of the nuclear plant.

There will be no cost to you for participating in this campaign. You will not have to go to court. Persons who sign automatically become members of the **Blue Ridge Environmental Defense League**. For more information, see the FAQs on this website, or contact us.

Mail the Declaration by December 8th to:
