## You Can Help Stop Plutonium Fuel!

The Department of Energy plans to build a factory near Aiken, SC to convert weapons-grade plutonium into fuel for nuclear power plants. The fuel factory would be built at the Savannah River Site, where the nuclear reactors are located near Charlotte and Rock Hill.

The Blue Ridge Environmental Defense League and other groups oppose this experimental project. If you live within 50 miles of the Savannah River Site, you would be affected.

You can help stop this threat to public health by signing the enclosed **Declaration** and mailing it to us before May 14, 2007. Signing the **Declaration** shows you would be directly affected by the plutonium plant and grants permission for us to represent you in a legal challenge to the operating license. Simply state your name, your address and that you live within 50 miles of the plant. (See the map.) If you live within the circle, you are within 50 miles of the proposed plutonium fuel factory.

There will be no cost to you for participating in this campaign. You will not have to go to court. Persons who sign automatically become members of the **Blue Ridge Environmental Defense League**. For more information, contact us.

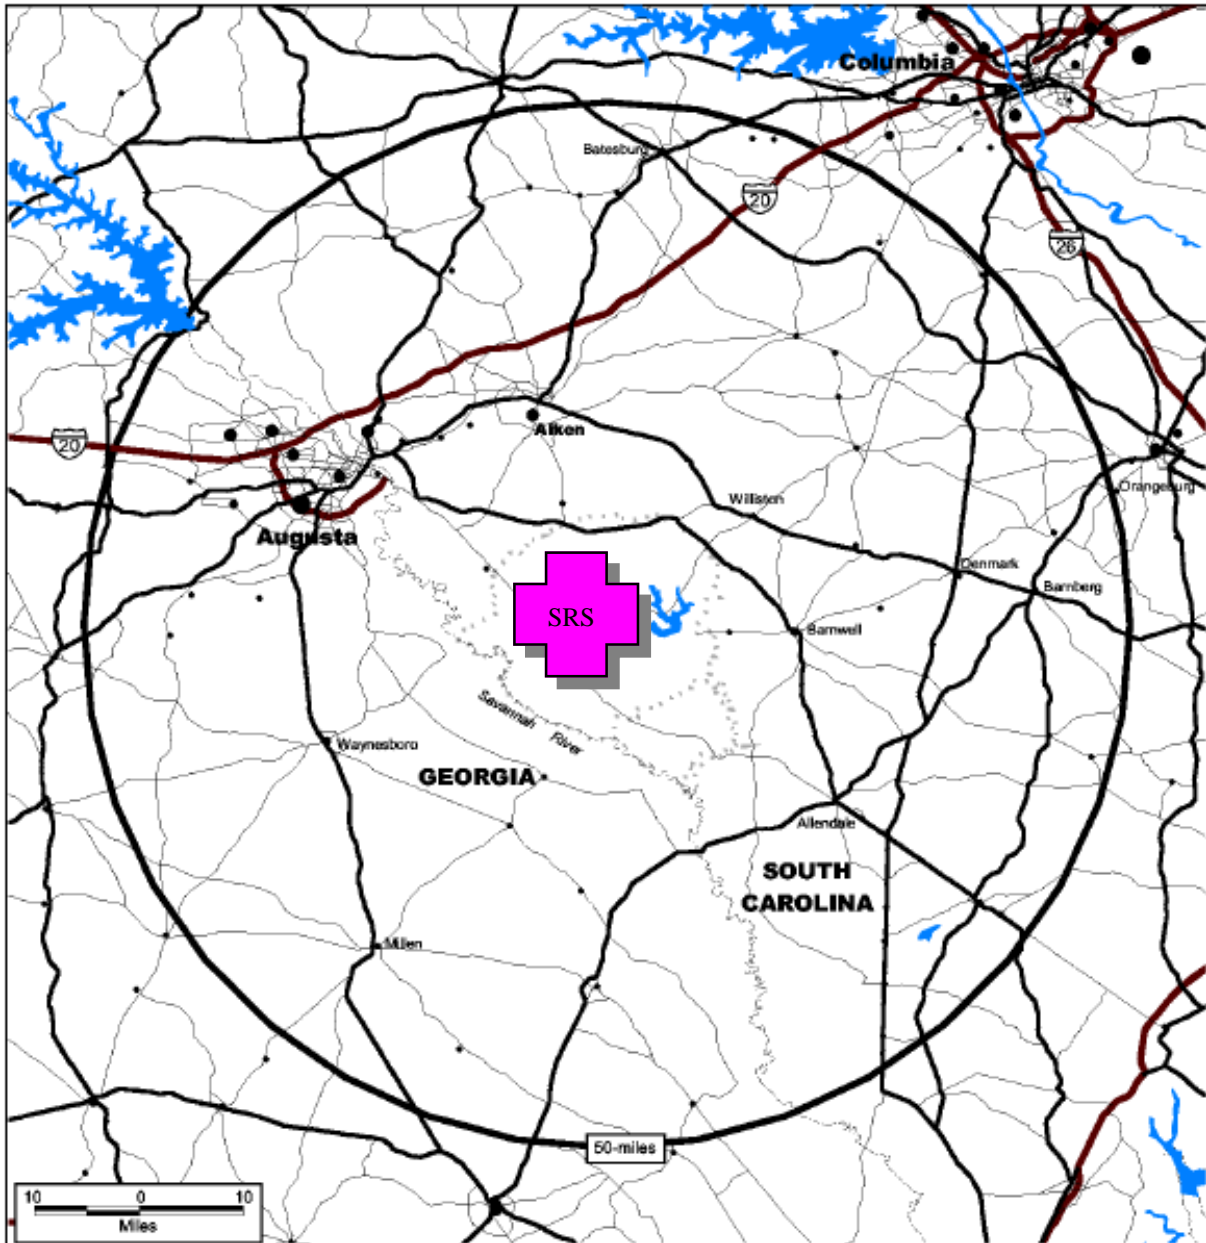

**Mail the Declaration by May 12th to:**

**BREDL**

**PO Box 88**

**Glendale Springs, NC 28629**
