

# DON'T BE DUMPED ON

Due to bad weather the presentation from citizens living near an existing State-of-the-Art landfill has been rescheduled. Please attend this meeting. It's time for the truth to be heard.

## USA WASTE COULD MEAN LITERALLY WASTE FROM ALL OVER THE UNITED STATES

In the first permit application to construct submitted by USA Waste, they requested a permit to dump waste from 5 states but not limited to those states. The writing is on the wall.

**WAKE UP COMMISSIONERS!**

- ♦ **If this DUMP is built, the height, when capped, could be higher than the highest pine tree on the site.**
- ♦ **Remember it's not too late! There is no permit.**

**ANSON COUNTY  
COMMISSIONERS TO  
MEET  
6:00 p.m.  
MARCH 5th  
LITTLE THEATER**

### Whose county is this?

USA Waste has threatened our commissioners and intimidated them. USA Waste told our commissioners when to vote and how to vote on a franchise which would allow USA Waste to bring in garbage to Anson County for at least 20 years. USA Waste has also threatened YOU, the citizens of this county, by issuing an ultimatum, **TAKE OUR WASTE OR WE WILL SUE** for money already spent on the site and for future projected profits. At least two previous times USA Waste has admitted they could not make a profit at the current contract limits. In a letter dated May 2, 1991 from a former Chambers official says when the dump is **finished** it will cost \$8 to \$10 million. The site has not even been approved by the NC Division of Solid Waste. There is no way USA Waste has invested even half of the \$8 to \$10 million on this site. So, how can they threaten to sue us, the citizens, for \$20 million?

We say let them sue! Let a judge decide. This decision is too important to let USA Waste use tactics of intimidation to seal our fate. If they are running over our commissioners now what will the future hold?

**ANSON COUNTY IS OUR  
BACKYARD!**
